

# Kotečník and Kamník

[coronn.com](http://coronn.com)

## Slovenia, Kotečnik and Kamnik

### How to find the crag:

Near Celje those nice crags is hidden in the forest. Kotečnik offers nearly 200 routes and the climbing is very good.

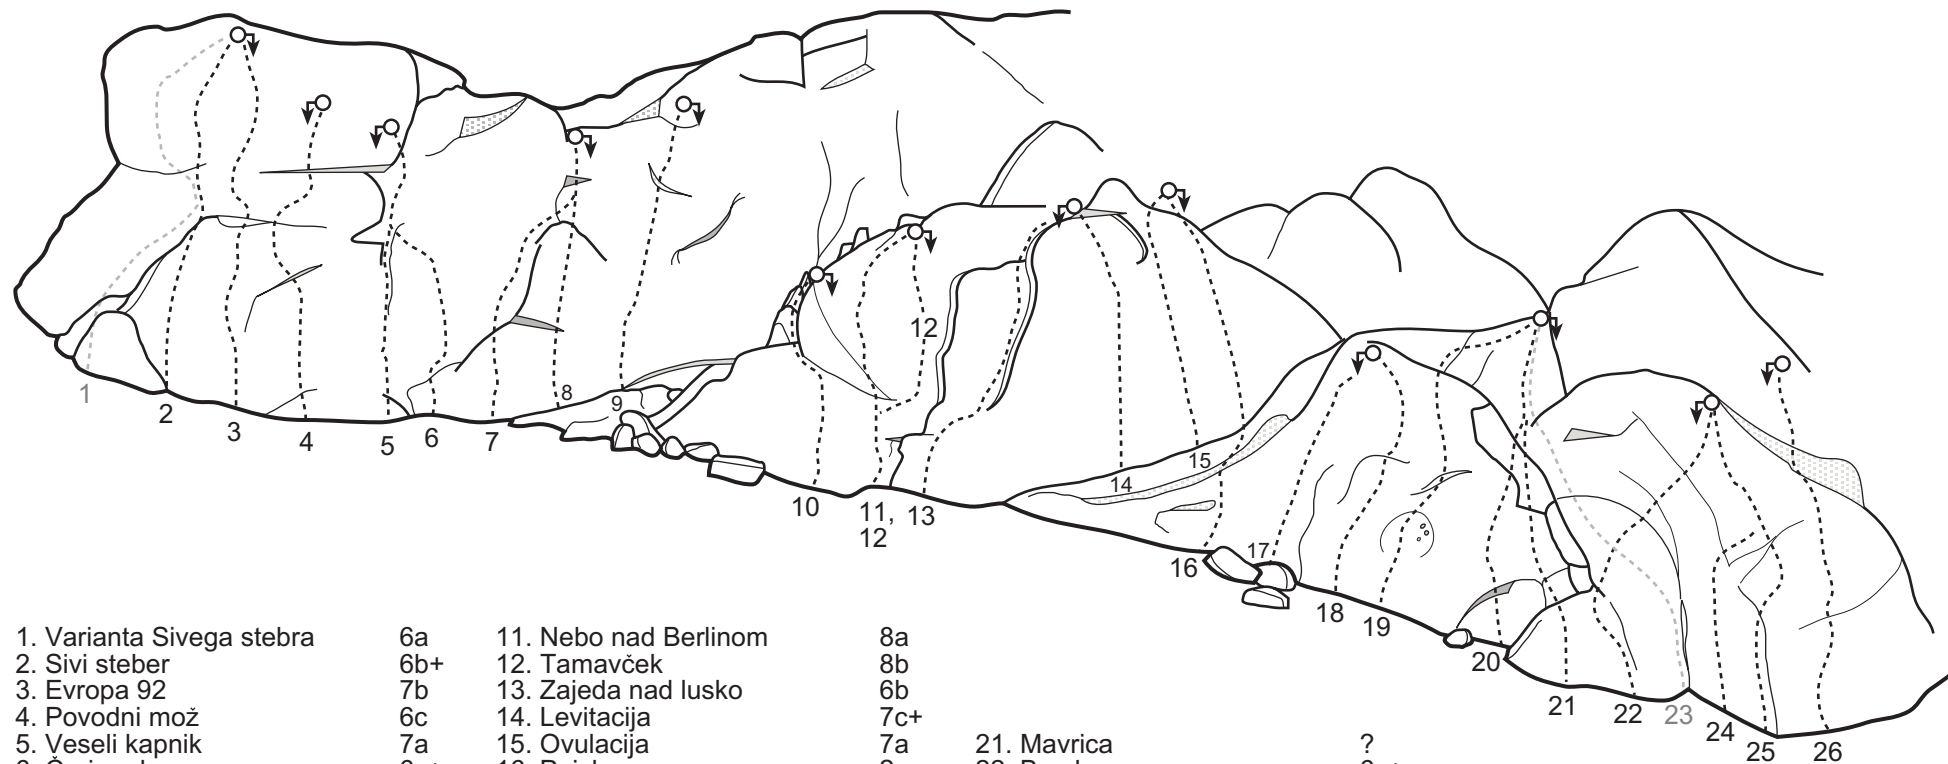

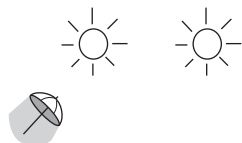

Turn of the highroad A1 in the direction of Žalec. As you have left the highroad, turn again in the direction of Arja vas/Petrovče and continue on this road to Liboje. Drive through Liboje and continue for 3,5 km on a quite small road in the direction of Zabukovica. In a sharp bend a gravelled road turns of to the right, park at the car park to the right of this road and walk up to the farm and the crags.

To reach Kamnik, continue to Zabukovica and then to the village Griže. Pass Griže and then turn left after the village in the direction of Matke. Just before Matke a small road continue straight forward where the road turns right, park and follow that road, signposted for Kamnik. Follow the track, pass the farm Baloh and after 15 to 20 minutes you will reach the crag.
